FIELD MEMORANDUM SCS #1061-B

Re: P-2 Planners

July 13, 1942

TO ALL RANKING FIELD OFFICERS:

Section E(5) of Field Memorandum 1061 is hereby rewritten to read as follows:

"(5) ordinarily has no more than one P-2 farm or ranch planner".

This change is made so that should efficiency of operation require it, more than one P-2 planner may be placed in a work unit. Decisions to make such additions might be impelled by lack of more than one suitable headquarters within a work unit, need for utilizing facilitating personnel to the fullest possible extent, or need for proceeding more rapidly with farm planning work. Where two or more P-2 planners are stationed at one headquarters, one should be designated as work unit leader, and the other(s) made administratively responsible to him, although it is understood that each P-2 planner would work independently from the technical standpoint in a designated part of the work area.

Acting Chief
